## TRANSFER STATION

### Information Regarding the Great Island Clean Up (GICU)

The GICU has been cancelled. We are still accepting litter and noxious weeds, however we had to make some changes to the information we gather when accepting this litter at the transfer station.

Beginning immediately, we will need to collect the following information at the scale for all litter loads—please have this information ready.

- **Hours Worked** (Number of People x Hours Worked)
- **Miles Cleaned** (and if a road or beach)
- **Location names, if available**

We appreciate your help in getting us the required information!
